

Who are we? Trimo is leading international company, manufacturing fire-proof roof and facade panels and steel pre-fabricated buildings. Our solutions are sold in more than 50 countries in the world. Through our sales net, we are directly present in 27 countries.

Would you like to see your name as the project manager for a building with character?

>> **Project manager**

We are currently expanding our network of experienced project managers to run complete engineering projects - either as contractors or as employees.

With a degree in either civil or mechanical engineering or economics you will have the passion and drive to achieve excellence in all project steps to realize the complete object:

- Setting out and preparation works
- earth works,
- constructions (concrete, RC concrete, steel, cladding, masonry works,....)
- electrical installation,
- mechanical installation (HVCA, fire net,)
- finalization works,
- landscape works (roads, parking, fences, pavements,...).

⤴ **IF THIS IS YOU**

Please apply in writing enclosing your CV written in English to sonja.klopcc@trimo.si.
